Medical history questionnaire

Before completing the questionnaire, make sure that:

- your employer has made a request for you to pass a medical examination at STM,
- the company you are working for is affiliated to STM.

If either of these requirements are not fulfilled, your questionnaire will not be retained and will be destroyed in accordance with GDPR.

When to use the following medical questionnaire?

In the context of the current health crisis and in order to reduce the travelling of employees as much as possible, certain **pre-employment medical examinations** may be replaced by an statement based on the data of a medical questionnaire completed by the employee.

The questionnaire can be used for all jobs at the start of employment, except for those listed below. A medical examination at the STM is mandatory for the following posts:

- **Employees with accident risk for themselves or for others "poste de sécurité",**
- **Caregivers,**
- **Workers working at height not secured by scaffolding (employees in roofing, voltigeurs),**
- **Construction workers driving vehicles,**
- **Workshop workers using dangerous machines (eg carpenters).**

There is no need to complete a questionnaire for these jobs because a medical visit will be scheduled automatically.

How to proceed ?

1. The employer sends the EMPLOYER APPLICATION form « Demande patronale» to the STM for the pre-employment medical examination.
2. If the employment differs with the job categories listed above, the employee can send the completed « Medical history questionnaire » below to the STM.
3. On the basis of the **questionnaire and the employer's application form**, the occupational physician will make a decision about the medical aptitude or request an appointment for the employee.
   Without the « demande patronale » sent by the employer, the demand will not be processed.
4. In case of medical aptitude, a copy of the medical certificate will be sent to both the employer and the employee.

If necessary, an appointment can always be requested on behalf of the employee or the employer.
If, regarding the items of the questionnaire, a consultation is required , an appointment will be offered to the employer who will be in charge of informing his employee of the scheduled date.
